 AND
Lieutenant Choyce
WILL SPEAK

Mr. Preston is the State Director of War Savings. He is president of one of the largest banks in the South, and is working for the U. S. Government for \$1.00. per year.

Lieutenant Choyce joined the British Army at the beginning of the war as a private. He was wounded leading his men "over the top" in the battle of Arras. On three occasions his battalion was wiped out by the Germans. He is now convalescing and on a lecturing tour. He tells his story well and describes conditions at the front and going "over the top" in a most impressive way. He has a very pleasing manner and is a very attractive speaker. His lecture will be enjoyed. Come and hear about the war from a man who has been on the battlefield more than three years.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Head-ache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. B 78

WHAT VICTORY MEANS

(Contributed by AGNES REPPLIER to the National Security League's campaign of Patriotism Through Education.)

It would be well if every American would dispossess his mind of two popular and pleasing fallacies. First, that the United States took up arms as a knight errant to right the wrongs of France and Belgium. Second, that our impressive entrance into the war must inevitably, and of itself, decide the issue. We are fighting as a free people for our own safety, and we must fight hard and well, or suffer a shameful defeat. Germany denied us the same because she thought we would accept our fate from her hands. She permits herself now a profound contempt for our army. Untrained men with defective ammunition are about as terrible in her eyes as prairie dogs would be in ours. She boasts happily that we will pay her the indemnity which is essential for her reconstruction.

Meanwhile, to make sure of our downfall, she plots treasonably in every state of the Union. Perhaps, if she wins the day, she will recompense such men as Senators Stone and La Follette, and Mayor Thompson of Chicago. More likely she will fling them on the scrap-heap. But loyal Americans may well understand that unless this nation puts forth all its strength, without reserve, without fatigue, without self-pity; unless we crush the traitors at home, and defeat the enemy abroad, a bitter future awaits us. At best, we shall be humiliated, impoverished, and crippled in our foreign trade for many years to come. At worst, we shall see in our land the blinding homes, the ravished women, the butchered children, the unutterable shame and horror which mark the wake of a German army of invasion.
